Northern University of Business and Technology Khulna.

Project Overview:

Math Teaches is a simple game designed for kids under age 12. Playing this game will have both fun and learning at the same time. Simple additions and subtractions will let the kids learn math.

Platform :

PHP, Java script, HTML, CSS, Bootstrap

Project Objectives:

- > Math Teaches will make learning math simple for kids
- > Making it good for self learning
- > Digital Learning material
